Technology Legend

A2DP A Bluetooth® profile that allows high quality audio content to be streamed from one device to another. Listen to streaming media, music and navigation through your headset.

Clearline™ Audio Provides advanced echo management, automatic gain control and acoustic limiting. It is compatible with both traditional phones and headsets as well as with wideband VoIP phones and headsets.

Dynamic EQ Optimizes voice quality on calls and automatically adjusts EQ settings when listening to music or for multi-media playback.

Smart Sensor Technology Built-in sensors deliver automatic functionality like answering a call by placing the headset on and automatically transferring calls between mobile phone and headset.

SoundGuard® Acoustic limiting for protection against sounds above 118 dBA.

SoundGuard DIGITAL™ All the benefits of SoundGuard, plus anti-startle protection which detects sudden increase in sound and eliminates the increase, and Time Weighted Average (TWA) measurement which prevents average daily sound exposure from exceeding 85 dBA.

Wideband Frequency range up to 6,800 Hz. Meets TIA-920 standard for genuine wideband response.

MDA200™

Belonging to our UC Enabler category, the MDA200 headset communication hub allows a corded or wireless USB headset³ to connect to and switch between calls from both PC and desk phone.
