

PRODUCT REFERENCE GUIDE

Polycom® CX Series Phones, Conference Phones and Speaker Phone

Optimized for Microsoft® Lync®

Polycom phones, conference phones and speaker phone optimized for Microsoft® Lync® are integral voice components to consider for any Microsoft UC strategy. Combining Polycom® HD Voice™ technology with the advanced presence-enabled telephony capabilities of Lync, these phones and speaker phones deliver new levels of productivity and information to desktops, conference rooms, lobbies, and common areas.

Phones that are optimized for Microsoft Lync have full support to Lync PBX functionalities, access to calendar and contacts, rich conferencing, extended functionalities when connected to the PC, and integrated security and manageability. They deliver a full Microsoft UC experience and are easy to deploy, use, and manage throughout your organization.

Polycom® CX5000 HD unified conference station

The Polycom CX5000 unified conference station provides productive group calls in conference rooms featuring a 360-degree panorama video camera.

- Plug and play USB speaker phone with wide-band audio, dial pad and high resolution, full color backlit display
- Provides remote participants with 720p HD active-speaker video that automatically tracks the flow of conversation
- Leverage your full Microsoft Lync investment without adding gateways or infrastructure

Polycom® CX3000 IP conference phone

The Polycom CX3000 IP conference phone provides productive group calls in conference rooms.

- Polycom HD Voice technology turns ordinary conference calls into crystal-clear interactive conversations
- 12-foot microphone pickup range allows all participants to hear clearly
- Large color display for easy access to call, directory, and presence information
